

ATLAS AGRO

ABOUT COMPANY

Atlas Agro Private Limited is an emerging agro-processing company focused on delivering high-quality dehydrated food products to the export and domestic market. Founded with a vision to add value to agricultural produce, Atlas Agro works closely with farmers, suppliers, and food businesses to provide reliable, consistent, and cost-effective solutions.

We specialize in the dehydration and processing of fruits, vegetables, and herbs, converting fresh produce into shelf-stable powders and dried forms while preserving natural taste, aroma, and nutritional value. Our current product portfolio includes onion, garlic, ginger, banana, and methi, catering to food manufacturers, wholesalers, and bulk buyers.

At Atlas Agro, quality and process discipline are at the core of everything we do. From raw material sourcing to processing and packaging, each stage is handled with strict attention to hygiene, consistency, and efficiency. Our facilities are designed to support scalable operations while maintaining uniform product standards across batches.

We believe in building long-term partnerships rather than short-term transactions. By combining modern processing techniques with deep understanding of agricultural supply chains, we aim to support our customers with dependable supply, transparent pricing, and customized solutions.

Driven by integrity, innovation, and operational excellence, Atlas Agro Pvt. Ltd. is committed to becoming a trusted name in India's agro-processing and food ingredient ecosystem.

WHY CHOOSE US

Hygienically Processed

All products are processed under strict hygiene and controlled conditions.

Proven Experience

Years of industry experience help us source the best quality raw materials.
